Lab 9: To demonstrate the concept of file handling:

1. Create a file (your_name.text) and write about your-self in that file through file handling function. Save at least 10 lines
2. Display the content of file (your_name.text) line by line.
3. Display the number of lines in file (your_name.text) which are not starting with alphabet "A".

4. Display the total number of words in file (your_name.text).

5. Display the count of those words whose length is less than 4 in file (your_name.text)
